

ACG Portals

Secure, fully-configurable customer, supplier, or customized portal that integrates seamlessly with IFS

Key Benefits

- Real-time integration with IFS
- Secure: leverages IFS security, two-factor authentication, AES 256-bit encryption, SSL and TLS 1.3, HSTS
- Mobility enabled with responsive design
- Multiple front-end interfaces
- Connected multiple backend systems: IFS, SQL server, legacy system, etc.
- Sync engine for rapid results – query data directly from IFS or synced data from MSSQL server
- Built-in scheduler
- Extensible
